1. Comment. The GSFG ammunition depot at Hohenleipisch appears only irregularly in supply traffic to subordinate armies. The four shipments to the four army depots in June should be noted because of the low traffic during the preceding months.
2. Comment. The traffic of the GSFG ammunition depot at Mochelohna is remarkably low.
3. Comment. Supply traffic in June to subordinate units from the Eighth Gds Army depot at Altenhain gives the following picture:
- Ammunition shipments: 40 carloads
 Weapons and equipment: 79 carloads, of which 28 were dispatched to the USSR. The volume of outgoing ammunition decreased compared to that of the preceding months, while the volume of equipment shipments increased.
4. Comment. It is noteworthy that the shipments from Kapon to the USSR were dispatched by the supply office of the chief of artillery of the GSFG.
